PROFESSIONAL SUMMARY

Hybrid Creative Developer with over 5 years of experience bridging technical execution and visual design in the Ad Tech industry. Expert in building dynamic programmatic campaigns (HTML5, JS, REST APIs, DCO) while applying advanced graphic design principles and interactive systems to deliver highly engaging, pixel-perfect, and cross-device advertising experiences.

PROFESSIONAL EXPERIENCE

Creative Developer / GumGum

February 2021 – May 2026

Remote / Querétaro, México

- Building front-end and rich media experiences using HTML, CSS, JavaScript, and internal platforms, ensuring adaptability to platform specifications and client requirements for desktop and mobile formats.
- Optimizing layouts and visual assets (Photoshop, Illustrator, InDesign, Figma) to maintain visual quality, performance, and brand consistency.
- Implementing complex animation sequences, transitions, scroll-based interactions, and dynamic visual behaviors, utilizing tools like Tumult Hype, Google Web Designer and Adobe After Effects for motion graphics and asset preparation.
- Cross-functional collaboration with Design, QA, Engineering, and Sales teams to resolve technical issues, implement revisions, and deliver production-ready ad units.
- Leading technical training and mentorship for creative production teams in Mexico and the United States.

Design Lead / AM Studios

July 2018 – May 2020

Querétaro, México

- Leading visual design and production for photography-based projects, including yearbook designs and institutional printed material for Tecnológico de Monterrey.

- Editing and retouching large volumes of photography for printed and digital deliverables.
 - Designing editorial layouts, organizing visual assets.
 - Preparing final files for production, working under client deadlines and quality requirements.
 - Supporting photo and video editing workflows for studio projects.
-

EDUCATION

Universidad Politécnica de Santa Rosa Jáuregui

Bachelor's Degree in Animation and Visual Effects

2015 – 2018
